6W LED lamp made up of aluminum and ABS illuminator, stainless-steel gooseneck arm covered by a PVC sheath, ABS base with fastening holes, on/off switch and built-in LED driver.

LED source exempt from photobiological risk.

Power supply 230V 50-60Hz.

Applications: particularly suitable for the lighting of work benches, sewing machines, stitching machines, grinding machines.

Electrical features

Power supply	230 Vac 50-60Hz
LED operating voltage	9,3 Vdc
LED operating current	700 mA dc
Power	6 W
IEC class	II
LED driver	built-in

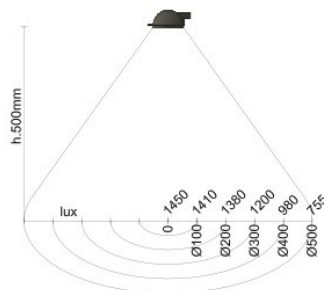

Mechanical and optical features

LED type	CITILED CL-L251
N. LED	1 x 6W
LED lifetime	50 000 h
Brightness	625 lm - 120°
Color Rendering Index	67
Light color	5000 K
Fastening	4 screws
Switch	Unipolar on-off on the base
Degree of protection	IP30
Color	Black - RAL9002

Order codes

CODES	L-arm	COLOR
P996..50.B	500mm	RAL9002
P996.70.B	700mm	RAL9002
P996.50.N	500mm	Black
P996.70.N	700mm	Black
